Sounds good – attached is a final version where I kept slide #4 and deleted #5.

Ray

I like it! Last slide is perfect and I prefer slide #4 v. #5.

Thank you,

Denny Murray, Pharm. D.

Hi Denny & Kristie-

I took a shot at modifying the bottom half of slide #4 to focus more on the '75% warning' and I also tweaked the graphic on the last slide to highlight the warning. The attached deck has two versions of slide #4 for comparison, but let me know if neither of these work and you'd like me to try something else.

Thanks.

Ray

Ray,

I just wonder if we need to make a bigger deal about flagging the stores at 75% so that an investigation can be done and we can avoid cutting/reducing orders and subsequently not have to report a SOM to the DEA.

For example slide #4- under warning level: 75% is called out, but should we say that this is adjustable?? Slide #6 is pretty busy and informative, so I don't think we can add to it, but never is it mentioned that stores will be flagged when their ceiling is at 75%.

Thank you,

Denny Murray, Pharm. D.

Hi Denny-

I've put together the attached slides to describe the CSR process - Kristie has also reviewed these slides. Please let me know if you have additional updates/suggestions and I'll update the slides accordingly to finalize.

Thanks.

Ray
